

Awesome KYUSHU!

FREE

Vol.3

Kyushu is an island located in the southwest of Japan.
There are many delicious foods, history, nature and culture.
This time ,I'll introduce the charm of KAGOSHIMA prefecture.

Today, I got on the N700 Shinkansen from Kagosima-Chuo station.
The reserved area, featuring paired reclining seats either side of a central aisle, are spacious and comfortable
I'm getting off the train at Sendai station, which is next to Kagoshima-Chuo station.

KYUSHU

Koshiki Island

KAGOSHIMA Pref.

I got on the Koshiki Bus, a shuttle bus operating between Sendai station and Sendai port.
This stylish bus is designed by Eiji Mitooka.

I got on the high-speed ferry "KOSHIKISHIMA" designed by Eiji Mitooka.
The ferry interior is cool, I can't decide where to sit because there are various seat patterns.
Kyushu Shinkansen, Koshiki bus and Koshikishima ferry connect all the way from Kagoshima-Chuo station to Koshiki Islands, which are all designed by Eiji Mitooka.
Amazing isn't it?

I arrived at Koshiki Islands at last!
I went to see Kanoko lilies (specious lilies) at the Yohagi-maruyama Park in Shimo-Koshiki Island.
This flowers bloom from early July to early September.
So gorgeous and beautiful!

I am staying at the Hotel Koshiki-shima Shinwakan.
The restaurant in the hotel has a fish preserve, so we can eat Japanese spiny lobster caught around Shimo-Koshiki Island.
I ate a lot of seafood, deep-water shrimps, silver-stripe round herring "Kibinago" etc.
It was soooo delicious :)
Aah, I'm full! I'll have a good dream tonight :)

Look!
This is a stone monument of a Japanese famous song "Ofukuro-san".
Ofukuro-san means "Mother".
Shinichi Mori is the singer who sings this song and his mother was born Shimo-Koshiki Island!
