The following is information on the status of corporate governance at Kyushu Railway Company (hereinafter, “the Company”).

I. Basic Corporate Governance Policies and Basic Information on Capital Structure and Corporate Attributes

1. Basic Approach

- (1) The JR Kyushu Group is involved in a variety of businesses based on safety and service born of its own strengths. At its base of operations in Kyushu, the Group continues to take on the challenge of creating an invigorated Japan and greater Asia in a tireless and enthusiastic manner.
- (2) In order to realize such a Japan and greater Asia, the Company aims to be a corporation in which customers, local community members, business partners, employees and their families, and shareholders can have lasting trust. To this end, the Company is establishing and improving frameworks and systems for decisive and prompt decision making as well as appropriate disclosure of information, while guaranteeing transparency and fairness in management. The Company is also further enhancing its efforts in corporate governance to realize continuous growth and long-term improvement in corporate value. Furthermore, the Company has established the Kyushu Railway Company Basic Corporate Governance Policy to serve as a basic approach and application guideline for its corporate governance.

Reasons for Not Implementing Each Principle of Japan’s Corporate Governance Code

Principle 1-4: Cross-Shareholdings

The Company engages in cross-shareholdings after comprehensively taking into account such factors as enhancing its relationship and collaboration with business partners as well as creating synergistic effects with Group businesses.

On an annual basis, the Board of Directors assesses whether or not to hold individual cross-shareholdings, thereby examining factors such as whether the purpose of maintaining the holdings is appropriate, and also whether gains related to the holdings cover the Company’s cost of capital or otherwise whether there are prospects for future improvement.

With respect to exercising voting rights of its cross-shareholdings, the Company casts opposing votes when there are concerns regarding corporate governance, and otherwise exercises its voting rights upon giving consideration as to whether or not a proposal will contribute to enabling growth of the entity concerned, improving its corporate value, or otherwise.

Supplementary Principle 4-1 (3)

Considering factors such as reports made by the Nomination and Compensation Advisory Committee, the Board of Directors decides on the president from among directors who have been nominated and appointed based on a selection standard determined by the Board of Directors, such that values a high level of ethics, personality, character and management ability.

The Company will continue to more extensively consider matters with respect to mechanisms regarding tasks that include development and nomination thereof.

Disclosure Based on Each Principle of Japan's Corporate Governance Code

Principle 1-7: Transactions between Related Parties

In the event a transaction occurs, or the potential of a transaction may occur, between the Company and its officers or key shareholders (shareholders who own more than 10% of total voting rights), the transaction is closely monitored through procedures that involve the prior approval of the Board of Directors to ensure that the common interests and rights of the Company and its shareholders are not jeopardized. Furthermore, the Company conducts surveys of the directors every year in regard to the occurrence of transactions with related parties in an effort to manage and monitor such transactions.

Principle 2-6: Roles of Corporate Pension Funds as Asset Owners

Not applicable because the Company has not adopted a corporate pension fund plan.

Principle 3-1: Enhancement of Information Disclosure

- (i) The Company's management philosophy and other important items have been determined in the JR Kyushu Group Medium-Term Business Plan 2019–2021. The plan has been disclosed on the Company's corporate website.
- (ii) The Company's basic approach to corporate governance is as stated in Part I.1 of this report, entitled "Basic Approach."
- (iii) In order to ensure that a director is provided an appropriate level of compensation based on his or her role and responsibilities, the Company has in place a system that takes into account a director's motivation toward improving business performance and corporate value. When determining compensation levels, reports are made by the Nomination and Compensation Advisory Committee, which comprises the president as well as outside directors, to the Board of Directors, which then decides on compensation amounts based on these reports. These amounts are held within a limit set in advance at the General Meeting of Shareholders.
- (iv) When nominating directors, considering factors such as reports made by the Nomination and Compensation Advisory Committee, the Board of Directors decides on candidates based on a selection standard determined by the Board of Directors, such that values a high level of ethics, personality, character and management ability. The Board of Directors makes a proposal to a General Meeting of Shareholders regarding the dismissal of a director, after considering factors such as reports made by the Nomination and Compensation Advisory Committee, and deliberating on the matter, if such director ceases to satisfy the aforementioned selection standard, or if corporate value has become significantly impaired as a result of such director having exercised negligence with respect to his or her professional duties, or if circumstances are such that would constitute grounds for disqualification otherwise. Approval of the Audit and Supervisory Committee is to be obtained prior to nominating a candidate for director who is an Audit and Supervisory Committee member.
- (v) When appointing, dismissing or nominating a director, the Company explains the individual reasons for such appointment, dismissal or nomination.

Supplementary Principle 4-1 (1)

The Board of Directors engages in decision making related to management and the Executive Committee engages in decision making related to business execution. In doing so, the Company works to separate the roles of management and business execution.

The Board of Directors decides on important items such as those stipulated by laws and regulations and the Articles of Incorporation, including the Regulations of the Board of Directors. Decision making on other items related to business execution is conducted by the Executive Committee. Furthermore, in accordance with the Guidelines on Administrative Authorities, authority related to day-to-day business execution is given to the relevant corporate officers as well as the heads of each department.

Principle 4-9: Independence Evaluation Criteria and Qualifications for Independent Outside Directors

The independence evaluation criteria and the qualifications for independent outside directors are listed under “Other Items Related to Independent Officers” in the “Independent Officers” section of Part II.1 of this report, entitled “Items Related to Institutional Organization, Organizational Management, Etc.”

Supplementary Principle 4-11 (1)

The Company’s Board of Directors appoints a diverse range of director candidates with varying expertise and experience, while considering the notion of striking a balance in the Board of Directors overall, and accordingly aims to develop an optimal workforce capable of effectively and efficiently carrying out such functions. Currently, it comprises inside directors who are well versed in the activities of each business division as well as a number of outside directors who offer advice based on their wide range of expertise and, from an independent standpoint, provide monitoring and supervisory functions in a highly effective manner.

Supplementary Principle 4-11 (2)

The Company limits the number of companies at which directors serve concurrent roles to the extent reasonable. In addition, the Company discloses important information on those serving concurrent roles in its Business Report.

Supplementary Principle 4-11 (3)

The Company recognizes that ensuring the effectiveness of the Board of Directors leads to improvement in its corporate value over the medium to long term. As such, the Company conducted surveys (anonymous form) of directors and auditors, which helped the Company analyze and evaluate the Board of Directors’ effectiveness. The overview of the results of these surveys is as follows.

- A survey of the directors and auditors was carried out, and the results of the survey, as well as the issues highlighted by it, were reported to and shared among the Board of Directors.
- In June 2018, the Company transitioned to a company with audit and supervisory committee and adopted Executive Officer System. In conjunction with that, the Company has decided to carry out a drastic overhaul with respect to its number and composition of directors, and items to be brought up at Board of Directors’ meetings, based on results of the aforementioned survey.

Supplementary Principle 4-14 (2)

The Company implements training for all of its directors related to the Companies Act and other laws. This training is provided by attorneys and other outside specialists.

Principle 5-1: Policy for Constructive Dialogue with Shareholders

In order to realize sustainable growth and improve corporate value over the medium to long term, the Company engages in earnest dialogue with its shareholders. The opinions received through such dialogue are reported in an appropriate manner to the Board of Directors.

The departments responsible for engaging in shareholder dialogue are the Strategy Management Department of the Corporate Planning Headquarters and the Administration Department. The Director General of the Corporate Planning Headquarters provides supervision for this dialogue. In addition, these departments exchange opinions and share the contents of shareholder dialogues with other relevant departments.

The Company decides on the individual members who will engage in shareholder dialogue based on shareholder requests and matters of concern. As a general rule, directors will also be present during these dialogues.

In regard to the methods in which the Company uses to engage in dialogue with its shareholders, the Company holds financial results presentations and discloses the contents of these presentations on its corporate websites. In addition, the Company carries out other methods for dialogue, such as private meetings.

When engaging in dialogue with its shareholders, the Company makes concerted efforts to prevent insider transactions in accordance with internal regulations related to information management and appropriate disclosure.

1. System for Ensuring the Business Execution of Directors and Employees of the Company and Group Companies Complies with Laws, Regulations, and the Articles of Incorporation
