Key points

year.

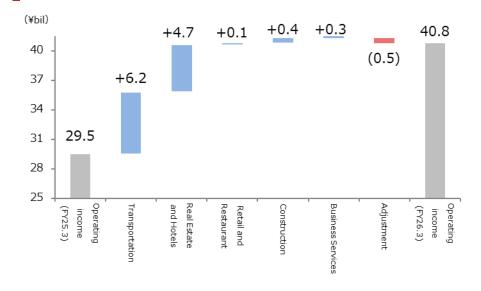

Owing to higher railway transportation revenues stemming from revised fares and charges, plus higher real estate sales revenue, consolidated operating revenues, operating income, and ordinary income increased year on

 Due to extraordinary losses resulting from "The heavy rains beginning August 6, 2025" and the cancellation of the project utilizing the space above the tracks at Hakata Station, net income attributable to owners of the parent decreased year on year.

Change in operating income by segment

About the Recording of Extraordinary Losses ①

 We recorded extraordinary losses due to "The heavy rains beginning August 6, 2025" and the cancellation of the project utilizing the space above the tracks at Hakata Station.

Damage from "The heavy rains beginning August 6, 2025"

- Damage occurred on the Kagoshima Main Line, Nippo Main Line, Hisatsu Line, and other routes.
- Operations between Yoshimatsu and Hayato on the Hisatsu Line have been suspended for the time being.
- We recorded an extraordinary loss of approximately ¥1.4 billion, including a provision for loss on disaster related to railway restoration efforts.

Suspended segment	Hisatsu Line, Yoshimatsu – Hayato
Main	Soil inflow
damage	Embankment collapse

About the Recording of Extraordinary Losses 2

 We recorded extraordinary losses due to "The heavy rains beginning August 6, 2025" and the cancellation of the project utilizing the space above the tracks at Hakata Station.

The cancellation of the project utilizing the space above the tracks at Hakata Station

2019	March	Project team launched; deliberations began
2021	September	Approved by the Board of Directors Plan envisions development including office, hotel, and retail space in a 12-story building (one basement level, 12 above-ground levels), spanning the area above the tracks at Hakata Station
	October	Preliminary temporary construction work for railway facilities began in advance
2022	March	Announced as the "the project utilizing the space above the tracks at Hakata Station"
2025	September	Board of Directors decided to cancel the project; cancellation announced
		·

- Because the planned site is located directly above the tracks at Hakata Station, the construction would be highly complex and prolonged, resulting in a significant impact from rising construction costs. It was determined that the total construction cost would be nearly double the initial estimate.
- In response, the Company reviewed the building's scale and intended uses (assets), redesigned plans, and examined construction methods to improve efficiency and reduce costs. Various possibilities were explored, including adjustments to revenue and cost structures. Despite these efforts, the Company concluded that formulating a feasible business plan was not possible. Accordingly, the Board of Directors resolved to cancel the project in September 2025.
- Approximately ¥8.7 billion in project withdrawal losses has been recorded as an extraordinary loss.

About Shareholder Returns

- JR Kyushu places importance on the stable provision of return to shareholders over the long term. Over the period up to FY28.3, we will aim for a consolidated dividend payout ratio of 35% or higher and flexibly implement share repurchases.
- Based on the above policy and taking into account the revised performance forecast, for FY26.3 we expect to award annual dividends of ¥115 per share and interim dividends of ¥57.5 per share.

Transportation Segment

 Looking at Q2 FY26.3 railway transportation revenues, commuter revenues and noncommuter revenues both exceeded our forecast.

Costs in the railway business have trended slightly below expectations.

[Forecasts]

Status of Key Businesses and Assumptions Behind Forecasts

- In Q2, railway transportation revenues exceeded our expectations for both commuter revenues and noncommuter revenues.
- Expenses in the railway business exceeded the previous year due mainly to an increase in personnel expenses resulting from base pay increases.
 Meanwhile, total costs trended slightly below expectations, reflecting such as lower-thananticipated repair expenses.
- Within the revised fares and charges, revision rates and rates of increase:

Commuter: Revision rate of 25.8%; rate of increase of 18.6% Non-commuter: Revision rate of 14.6%; rate of increase of 11.5% Charges: Revision rate of 8.0%; rate of increase of 6.5%

*

Status of Inbound Measures in the Railway Business

 Inbound revenue in Q2 FY2026.3 progressed in line with expectations, remaining above the year-ago level, despite a shift from the JR-KYUSHU RAIL PASS to regular tickets.

Real Estate and Hotels Segment: Real Estate Leasing Business

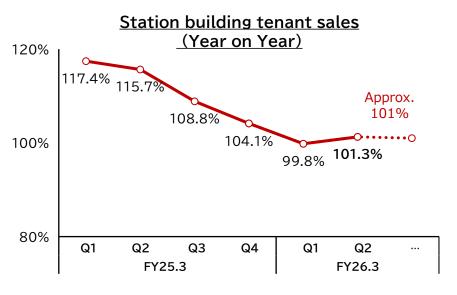

- Station building tenant sales in Q2 FY26.3 were in line with overall expectations, as a decline in duty-free sales at JR Hakata City has moderated.
- Operating revenues increased year on year as expected, driven by growth in rents at station buildings, along with the full-year contribution of new assets such as rental apartments.

	Results] (¥bil)					
			6months ended September 30, 2025	Yo	ρΥ	
	Operating revenue	37.6	39.9	2.3	106.1%

	18.2	18.4	0.1	101.0%	
	32.8	33.1	0.2	100.7%	

Status of key businesses

- Tenant sales in Q2 were in line with overall expectations, as the rate of decline in duty-free sales slowed.
- Nintendo's directly managed official store is scheduled to open at AMU PLAZA HAKATA on November 14. This will be the company's fourth store in Japan and its first location in Kyushu.
- Occupancy rates at office buildings and rental apartments remained generally solid.
- Began in-house development of an office building near Higo-Ozu Station on the Hohi Main Line. Scheduled for completion in January 2027.

Real Estate and Hotels Segment: Real Estate Sales Business

- Condominium sales were flat year on year in Q2 FY26.3.
- Regarding the sale of owned properties, we sold one office building and two rental apartments to a private REIT.

[Results] (¥					(¥bil)
			6months ended September 30, 2025		ρΥ

	6.4	7.6	1.1	117.6%
	6.4	7.6	1.1	117.4%

Status of Key Businesses

- In condominiums, we handed over MJR Chihaya Mid-Square, among others, in Q2.
- As for the sale of owned properties, we sold JR Kumamoto Kasuga-Minami Building, RJR Precia Chidori, and RJR Precia Takasago to a private REIT in Q2.

MJR Chihaya Mid-Square

Location: Higashi-ku, Fukuoka Structure: 18 floors above ground Delivery date: March 2025

Units: 532

Sales status: Sales in progress

JR Kumamoto Kasuga-Minami Building

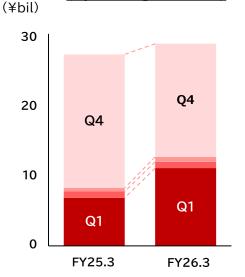

Location: Nishi-ku, Kumamoto Structure: 4 floors above ground Completion date: December 2020

Total floor area: 3,600 m²

- As for condominiums, MJR Kumamoto Gate Tower and MJR Kagoshima-Chuo Ekimae The Garden, among others, are scheduled to be handed over during the current fiscal year.
- Regarding the sale of owned properties, we expect operating revenue of approximately ¥8.0 billion is for the full year.

Actual and forecast sales of condominiums (operating revenue)

Real Estate and Hotels Segment: Hotel Business

 In Q2 FY26.3, hotels with a high proportion of inbound guests continued to drive performance. ADR was at the same level as in Q2 FY25.3, and occupancy exceeded expectations.

(Vb:I)

Shareholder return policy

JR Kyushu places importance on the stable provision of return to shareholders over the long term. Over the period up to FY2028.3, we will aim for a consolidated dividend payout ratio of 35% or higher and flexibly implement share repurchases.

Key Strategy (1) Realize Sustainable Mobility Services: Increase in Value Provided to Customers

- We are implementing initiatives to improve customer satisfaction and create a more comfortable user environment, using increased railway transportation revenues from fare revisions as a source of funding.
- Next-Generation Guidance System

Note: The design is for illustrative purposes only.

- Information such as departure boards at stations will be made available via a web browser to improve convenience by providing real-time information.
- To reduce maintenance costs, operational data will be moved to the cloud and the traditional departure boards at each station will be replaced with LCD monitors.
- A limited trial was conducted at select stations in October 2025.

"Love a Toilet Project"

Before

After

- We are conducting a renovation project to ensure customers can use station restrooms comfortably.
- Renovations include replacing fixtures, upgrading interiors, and updating signage, based on usage conditions and aging of facilities.
- Renovations have been completed at 13 stations including Hakata Station (inside the central ticket gate); renovations at 9 more stations are planned within this fiscal year.

Renovated restroom inside the central ticket gate at Hakata Station

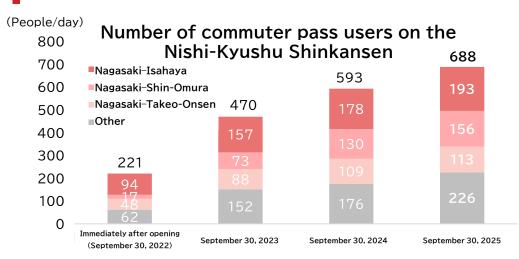

Designs inspired by local elements such as Hakata magemono bentwood and Hakata-ori textiles, layout updates for improved usability, and signage indicating available stalls have been installed.

Key Strategy (1) Realize Sustainable Mobility Services: Sales Measures

- The number of commuter pass users on the Nishi-Kyushu Shinkansen continues to trend upward. In addition, convenience is increasing as the area of IC card use is expanding.
- We recognize that collaboration events with other companies are effective in stimulating demand. New events are also planned for the second half of the fiscal year.

Status of the Nishi-Kyushu Area

Expanding the service area for the SUGOCA IC card on the Omura Line (October)

- In addition to enabling use between Nagasaki and Sasebo, the service area will be unified across Fukuoka, Saga, Nagasaki, Ōita, and Kumamoto Prefectures, allowing mutual use within the region.
- Implementation is based on a comprehensive partnership agreement concluded with Nagasaki Prefecture. The prefecture provided support for the initial investment required for system rollout.

Key Strategy (1) Realize Sustainable Mobility Services: Initiatives in the Hohi Main Line Area

 Agreement was reached on measures to be taken in cooperation with Kumamoto Prefecture for the early realization of the development of the airport access railway and the enhancement of transportation capacity on the Hohi Main Line.

The agreement with Kumamoto prefecture

Goal

Early realization of the development of the airport access railway and the enhancement of transportation capacity on the Hohi Main Line

Key Point

- Operation of the airport access railway under a vertical separation model
 - Enhancement of the Hohi Main Line
 - Cost-sharing structure: The company will bear up to one-third of the project costs, funded by increased earnings from the Hohi Main Line resulting from the airport access railway

Joint press conference with Kumamoto Prefecture (October 31, 2025)

Overview of the Airport Access Railway

• Estimated project cost: Airport access railway development: approx. ¥61.0 billion

approx. To the bittlett

Hohi Main Line transport capacity enhancement: approx. ¥6.0 billion

• Travel time Local: approx. 48 minutes

(Airport Station to Kumamoto Station) Rapid: approx. 39 minutes

TSMC Kumamoto Plant (jasm)

Higo-Ozu Station

Planned location of new station

Haramizu Station

Airport Access Railway

Musashizuka Station

Hohi Main Line

Aso Kumamoto Airport

Kumamoto Station

Enhancement of the Hohi Main Line

- Introduction of Rapid Train Services
- Enable train passing at Tokai-Gakuen-mae Station
- Enable simultaneous train entry at Musashizuka Station and Haramizu Station
- Construct new facilities to enable train passing

...and other improvements

Source: "Results of Study and Review Regarding the Airport Access Railway (Including Estimated Project • Costs, Ridership Forecasts, B/C Ratio, etc.)," Kumamoto Prefecture (Japanese language) https://www.pref.kumamoto.jp/soshiki/215/247871.html

Key Strategy (2) City Building through Enhanced Collaboration among Businesses: City Building around the Hohi Main Line

- Owing to a grouping of semiconductor companies, we expect to see an increase in interaction and population along the rail line.
- We are involved in a city planning project for the area between Haramizu Station and a new station and developing an office building near Higo-Ozu Station.

Tentative name: Haramizu Station Area Land Readiustment Project

The consortium we are belong to (representative: Mitsui Fudosan Co., Ltd.) was selected as a project study partner in charge of organizing requirements up to project approval. We are studying the path toward realization of the future vision envisioned by Kikuyo town.

Tentative name: JR Higo-Ozu Building Development Project

The building is intended as a base for semiconductor suppliers and other companies.

Date of completion: January 2027 (planned)

2 minutes 'walk from Higo-Ozu Station. About 8 minutes' drive to Semicon Techno Park where TSMC Kumamoto Plant is also located.

Consignment period

Until March 31, 2026

Target area

Approx. 70ha between the new station and Haramizu Station

Others

Public solicitation will be issued for a project promotion partner who will be in charge of land development, etc. after the project is approved (timing to be determined).

TSMC's Kumamoto Plant (First Plant)

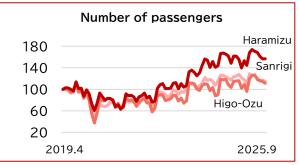

Location : Kikuyo town, Kumamoto Prefecture

Other

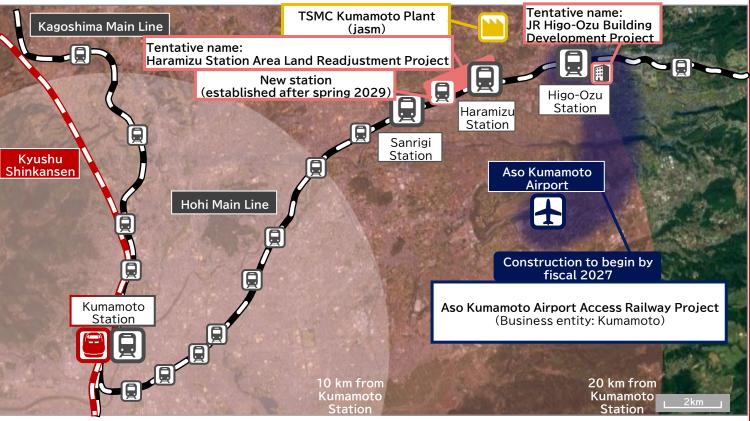

Operational: From December 2024 :The second plant is under construction near the first

plant.

Note; Number of passengers in April 2019 = 100

Lot area: Approx. 9,212 m

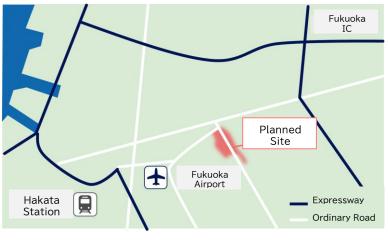

Key Strategy (2) City Building through Enhanced Collaboration among Businesses: Participation in Land Readjustment Projects

• A joint enterprise group including us has been selected as the "planned contractor" for land readjustment projects in the towns of Kasuya and Shime, Kasuya-gun, Fukuoka Prefecture.

This image represents a future concept and may o	differ from the actual development.
--	-------------------------------------

Project areas	Nakabaru Higashi District, Kasuya and Befu District, Shime			
Location	Kasuya Town, Kasuya District, Fukuoka Prefecture (incl. Oaza Nakabaru, etc.)			
Project area (planned study area)	Approx. 32.2 ha			
Group collaborators	Kyushu Railway Company Nishimatsu Construction Co., Ltd. Tokyu Land Corporation			
Planned project schedule	FY2027 or later: Start of land development work FY2033 or later: Completion of land development work			
Usage	Logistics facilities, commercial facilities, housing, etc.			

- The project site is located along a major local road in the town of Kasuya, with which we have signed a comprehensive partnership agreement, and is located within 20 minutes by car from both Hakata Station and Fukuoka Airport.
- The plan proposes a mixed-use urban development centered on logistics and commercial facilities.
- Detailed feasibility studies will be conducted going forward.

Key Strategy (3) Plant Seeds for the Future

- We entered into a capital and business alliance with XPERISUS Inc. to strengthen the inbound tourism business targeting wealthy visitors.
- Began maintenance and management of railway overpasses in April this year under an agreement with Kitakyushu City. Expanding business in the BtoG market

Capital and business alliance with XPERISUS Inc.

- Background and objectives of the alliance
- X P F R I S U S
- In April 2024, we launched a tourism business targeting affluent inbound travelers. We have been planning, developing, and selling tailor-made travel experiences focused on destinations throughout Kyushu.
- We formed an alliance with XPERISUS Inc., a company with a similar target market and sales structure, in order to strengthen and enhance initiatives through collaboration.

Business Expansion Through a Comprehensive Maintenance Agreement for Railway Overpasses

- Initiatives
 - To implement efficient and effective maintenance through integration and enhance the safety and security of road and railway users, an agreement was concluded with Kitakyushu City.
 - Business scope expanded through the integrated contracting of daily inspections and preventive maintenance works.

Outlook

 The alliance aims to build a reciprocal referral and complementary relationship, expand high-quality and stable sales channels, and promote human resource development.

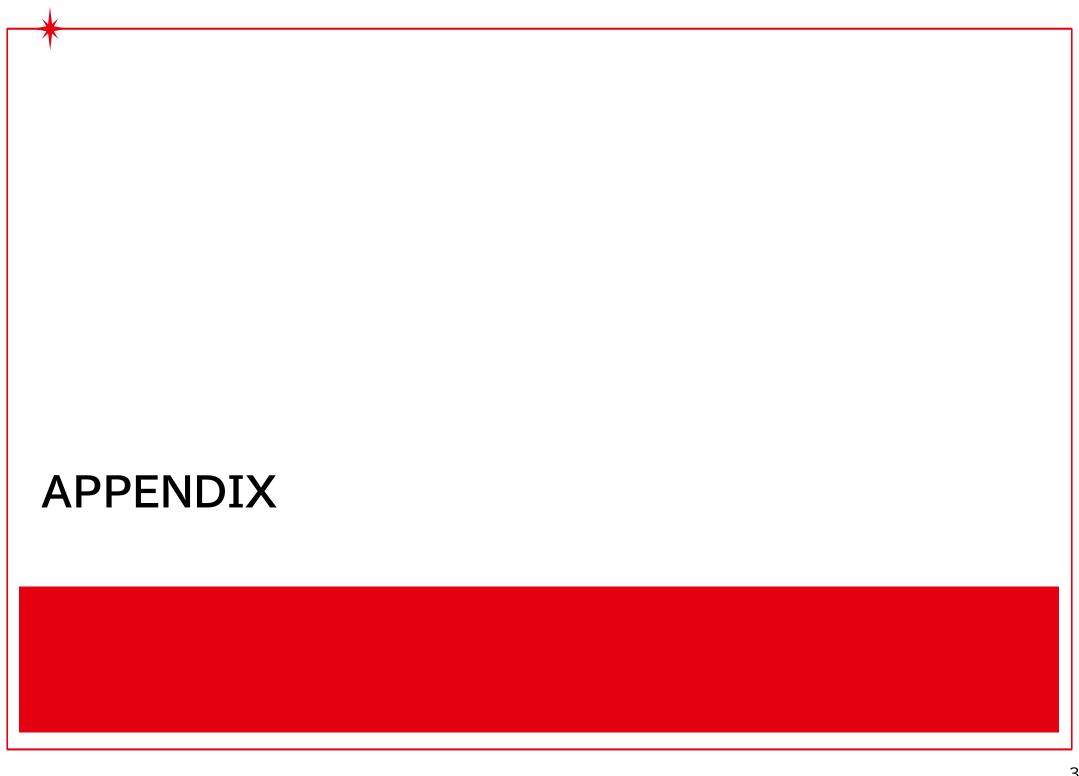

Areas of collaboration

- (1) Daily inspections of railway overpasses
- (2) Periodic inspections of railway overpasses
- (3) Preventive maintenance and repairs of railway overpasses
- (4) Emergency response in case of abnormalities related to railway overpasses
- (5) Use of new technologies and future maintenance planning

Note: Underlines indicate newly added responsibilities covered by this agreement.

LOGI STATION Fukuoka Kanda	Miyako-gun, Fukuoka Prefecture	January 2026: Planned completion	Site area: Approx. 28,076 m² Total floor space: Approx. 16,000 m²	 Joint project with Yoshida Kaiun Dry warehouses, heavy cargo warehouses, hazardous material warehouses
Logicross Misato	Misato City, Saitama Prefecture	August 2026: Planned completion	Site area: Approx. 54,535 m² Total floor space: Approx. 135,040 m²	 Joint project with Mitsubishi Estate, us, and Sumitomo Warehouse Multi-tenant logistics facility Dry warehouses, hazardous material warehouses
Tosu City Murata-machi Development Project	Tosu City, Saga Prefecture	February 2028: Planned completion	Site area: Approx. 21,649 m² Total floor space: Approx. 21,254 m²	 Multi-tenant logistics facility Dry warehouses, hazardous material warehouses

Note: Schedules are subject to change

Monthly Information and Revise Rail Fares and Charges

Monthly Information

Trend of Handing Revenues

Revenue from tickets sold at JR Kyushu stations, through online JR Kyushu train reservation, and at travel agencies. The "Railway Transportation Revenue" on the income statement is calculated after settlement with other JR companies and travel agencies, based on trend of handing revenues.

①Commuter Pass Revenue

Revenue from work and school commuter passes. Percentage revision is 25.8%, and rate of increase is 18.6% (work and school total). Due to the impact of the pre-purchases, the monthly figures are expected to remain below percentage revision and rate of increase for the time being.

2Non-Commuter Short Distance

Among non-commuter pass revenue, that from tickets within a distance of 50 km (including IC cards, etc.) . Percentage revision is 14.6%, and rate of increase is 11.5% (non-commuter).

3 Non-Commuter Medium-to-Long Distance

Among non-commuter pass revenue, that from tickets excluding short distance. That also includes tickets sold in our company for other JR companies 'sections. Percentage revision for non-commuter is 14.6%, and for charges is 8.0%. Rate of increase for non-commuter is 11.5%, and for charges is 6.5%. Since fare and charge revisions have not been implemented in other service areas as of now, the monthly figures are expected to remain below percentage revision.

The average daily number of passengers in the section. Figures in brackets () are comparison with those for the same month in FY2019/3.

Revise Rail Fares And Charges (Material from July 2024)

		Upper limit of	Fares or Charges	
		Percentage revision	Rate of increase	
Non-Commute	er 2•3	14. 6	11.5	
Commuter	Work commuter passes	30. 3	22. 4	
1)	School commuter passes	16. 0	9. 9	
·	Total	25. 8	18. 6	
Charges (3)	8. 0	6. 5	
(Shinka	insen express charges)	12. 4	9. 9	
	Total	15. 0	11.4	

The rate of increase is calculated by taking into account a certain decrease in usage due to the revise of rail fares and charges from percentage revision.

Percentage Revision 15.0%
Rate of Increase 11.4%
Increased Revenues
¥16.0billion (three-year average for FY2026/3 to FY2028/3)

Rail Fares and Charges in the Railway Business

- In April 2025, we implemented a revision of rail fares and charges—for the first time in 29 years.
- Recognizing that it will become difficult to operate a sustainable railway business unless the cost increase caused by changes in the external environment can be passed on quickly to price, we will continue to request the government to implement a flexible and simple system, such as notifying Shinkansen limited express charges and introducing a system to respond to inflation at an appropriate time.

Overview of rail fares and charges

Breakdown of rail fares and charges

- Charges

 → Compensation for the use of facilities, the provision of additional services, and the provision of services other than transportation
 - → Compensation for the transportation of people or goods

Procedures for establishing and adjusting rail fares/charges

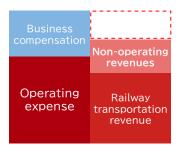

- Establishing/adjusting the upper limit for fares and Shinkansen express charges requires approval from the minister of the Ministry of Land, Infrastructure, Transport and Tourism (MLIT).
- Establishing/adjusting fares and Shinkansen express charges within the scope of the upper limit and establishing/adjusting conventional line express charges, etc., can be handled by notifying the minister of the MLIT.

Examination standards for upper limit fares/charges

 Prior to giving approval for establishing/adjusting the upper limit on fares, the minister of the MLIT must confirm that the new upper limit does not exceed "total cost," which is the sum of the proper operating costs if it were to carry out efficient management and the proper profit calculated pursuant to specified methods.

If examination standards are met (illustration)

Expense > Revenue

Initiatives to realize management that is conscious of capital cost and stock price

Our view

To enhance market valuation, it is essential to execute strategies that clearly demonstrate future growth potential and gain market understanding.

From the perspective of increasing shareholder value, we recognize the growing importance not only of improving ROE but also of lowering the cost of equity capital.

Policy direction

- Aim to expand the equity spread by continuously focusing on improving return on capital and reducing the cost of equity capital
- Continue shareholder returns to enhance shareholder value

Target a dividend payout ratio of 35% or more on a consolidated basis, while also conducting flexible share repurchases

Initiatives to improve ROE

Drive growth and improve efficiency in existing businesses while creating new sources of revenue

Execute the three key strategies outlined in the mediumterm business plan: "Realize Sustainable Mobility Services," "City Building through Enhanced Collaboration among Businesses," and "Plant Seeds for the Future"

- Review the business portfolio in a timely and appropriate manner, including potential exits
- Overall reduction in cross-shareholdings
- Utilize debt effectively and manage equity levels

Initiatives to reduce cost of equity capital

Strengthen business resilience and build a sustainable operating structure

Respond swiftly to management challenges (e.g., Future Railway Project, fare and charge revisions, local line discussions)

Initiatives involving IR activities

Engage in disclosure and communication that addresses market opinions

[Key metrics over time]

	Share price (¥)	PBR (times)	ROE (%)	PER (times)
FY22.3	2,507	1.0	3.4%	29.7
FY23.3	2,949	1.1	7.8%	14.9
FY24.3	3,543	1.3	9.1%	14.5
FY25.3	3,650	1.3	9.7%	13.1
FY26.3 (Forecast)	-	-	9.9%	-

[Examples of initiatives]

Enhance shareholder value

Work to expand the equity spread

Improve ROE

Equity spread
(= ROE - Cost of Equity)

Reduce the cost of equity capital

Provide stable and long-term shareholder returns

Governance Enhancement Measures and Implementation Status in the JR Kyushu Group in Light of the JR Kyushu Jet Ferry Incident (1)

Item		Checkpoints	Status	Implementation Status and Scheduled Actions
Appointment of officer in charge of safety and		Appointment status of safety officer	Initiated	Confirmation completed that all Group companies have appointed an officer in charge of safety.
holding of regular safety meetings		Status of regular safety meetings	Initiated	Confirmation completed that all Group companies are holding monthly regular safety meetings in the second half of FY2024.
	Monitoring by the supervising department of companies involved in incidents with major social impact	Status of monitoring		Monitoring meetings for JR Kyushu Jet Ferry held monthly from December 2024 through February 2025 to confirm progress on countermeasures. Monitoring meetings concluded following withdrawal from ferry operations.
	Identification of risks at Group companies *Major risks related to business operations and safety	Identification of risks and countermeasures; confirmation of progress on countermeasures		Confirmation completed that all Group companies have documented major risks and countermeasures related to safety in mission sheets and submitted major risks and countermeasures related to business operations.
